1 Introduction

This section introduces your research topic, outlines the problem, and provides an overview of your research objectives and the structure of your paper.

2 Data Analytics in Cybercrime

This section focuses on explaining the role and significance of data analytics in understanding and combating cybercrime.

3 Methodology

In the methodology section, you describe the research methods, data collection, and analysis techniques you used in your study.

4 Results

Here, you present the findings of your research based on the data analysis and discuss the results in the context of your research questions.

5 Discussion

In this section, you interpret the results, discuss their implications, and relate them back to your research objectives and the existing literature.

6 Conclusion

The conclusion summarizes the key findings, the significance of your research, and offers recommendations or future research directions.

7 Attachments

7.1 Python Code
